DESCRIPTION: This study is for the many Christians who have experienced "dry" periods in their life. Many Christian souls have become barren and parched due to life's trials and burdens. The irony is that Christians have living water available within them! In the pages of "Overflow", Dr. Richard Blackaby shares a treasure trove of biblical truths that can help you experience living water each day as you abide in Christ and as you serve Him. We invite you to walk alongside Moses and Elijah and see how they ultimately learned to live and lead out of the overflow of their personal walk with God. As you read these pages, may you find refreshing and nourishment and be empowered to undertake God's assignment for you. God doesn't just want you to survive. He wants you to live and minister out of the overflow of His abundance.

DESCRIPTION: Money is one of the toughest topics to cover from the pulpit. But as a key component of discipleship, we know how badly it's needed. We're here to help you carry that load. Financial Peace University has become a staple for many financial discipleship ministries in churches (big and small) throughout the nation.

What if families like yours didn't have to face car payments or credit card debt? What if couples were on the same page with their finances and could avoid those destructive money fights? What would the people in our church be able to accomplish without being held back by finances? What if our church was known in the community as the place people came to learn how to handle their money? That's not a dream. It's more than just possible. It's a reality. More than 4.5 million people have gone through FPU and learned God's ways of handling money. They've been taught how to create a budget they can actually follow, and they've rewritten their stories—changing their futures forever. We are making this course available to promote the life-change that comes when people learn to take control of their money.
